Home-Based Medical Care: Leadership Across the Landscape

Details subject to change. Updated August 2, 2021
THURSDAY, OCTOBER 28  Pre-conference Day | All Times Eastern (ET)

9:00 am – 11:00 am

PLATINUM SPONSOR
Product Theaters
Get an in-depth look at new products and services offered by sponsor organizations for home care providers. Check back for more details!

10:00 am – 1:00 pm

Wound Care for My Home-based Patients – HELP!
Do your home-based patients have chronic wounds that will not heal? Join us for this focused pre-conference session designed to help you with advanced treatment options in post-acute care. Enhance your clinical confidence and decision-making for Diabetic Foot and Venous Leg Ulcers, as you take a deeper dive into understanding the etiology, clinical assessment, classifications, wound-bed preparation, risk factors, complications, treatment, and product selections, based on the T.I.M.E. principles.

LEARNING OBJECTIVES
• Describe the pathophysiology of and risk factors for venous leg ulcers (VLUs) and diabetic foot ulcers (DFUs)
• Discuss clinical assessment, classification, and terminology for VLUs and DFUs
• Review the T.I.M.E. principles of wound bed preparation and discuss treatment selection for VLUs and DFUs

Bridget Carey MSN, RN, CWCN, Medical Education Manager, AWM US
Thomas Serena, MD, FACS, MAPWCA, FACHM, Founder and CEO, SerenaGroup® Inc.
Mandy Spitzer MBA, RN, CWOCN, CFCN, Medical Education Manager, NPWT

11:00 am – 5:00 pm

2021 USERS GROUP MEETING
What’s Happening, What’s Next
With more than 125 Full and Affiliate Members, the Hospital at Home Users Group is a dynamic and growing community of hospital at home programs throughout the United States and Canada. Many of our members are participating in the Centers for Medicare and Medicaid Services (CMS) Acute Hospital Care at Home program, either expanding or starting new hospital at home initiatives.

The 2021 Hospital at Home Users Group Annual Meeting—What’s Happening, What’s Next—comes amid a period of transformational growth for hospital at home programs across the country. Spurred by the CMS waiver, health systems and hospitals are exploring how acute care for a wide range of patients and diagnoses can be delivered safely and effectively at home. Looking beyond the public health emergency, all hospital at home programs must consider how to both improve their patient care and respond to an uncertain future.

The Annual Meeting consists of morning and afternoon sessions, featuring presentations from experts in delivering high quality acute care in older people’s homes. Additionally, it includes a poster session, innovation presentations, awards, results from a hospital at home photo contest, and even some hospital at home trivia.

LEARNING OBJECTIVES
By the end of the pre-conference, participants will:
• Have a clear understanding of recent developments in the hospital at home movement and the Hospital at Home Users Group
• Develop a clear grasp of the current state and future prospects of the hospital at home model and its implementation in diverse settings
• Learn about innovations in hospital at home practice across the US and Canada

KEYNOTE SPEAKER
Lee A. Fleisher, MD, Chief Medical Officer & Director of the Center for Clinical Standards & Quality, Centers for Medicare & Medicaid Services; Professor of Anesthesiology & Critical Care, Perelman School of Medicine, University of Pennsylvania

1:00 pm – 4:30 pm

Level Up! Take Your House Call Operations to New Heights
Designed for providers, practice managers, and other staff interested in enhancing the efficiency, productivity, and ultimately the bottom line of their house call program. Expert faculty from Home Centered Care Institute will present actionable tips and strategies that can be quickly implemented to yield measurable results. Content will include implementing geographic scheduling and route planning; optimizing your
EMR; leveraging effective marketing and community relations; enhancing revenue cycle management and more. In this challenging time, all of home care medicine is looking for the “secret sauce.” Come and learn about some of the key ingredients!

LEARNING OBJECTIVES
- Discuss proven strategies and recommended best practices to streamline house call operations and boost productivity.
- Design and implement a plan aimed at achieving measurable results in terms of efficiency, quality of care, and practice growth.
- Improve patient care while enhancing the program’s bottom line.

1:00 pm – 5:00 pm
Dedicated Time with Exhibitors and Poster Authors
Take advantage of dedicated time at the Virtual Exhibit and Poster Halls! Enjoy an interactive, engaging, online environment that allows you to learn about products and services, cutting-edge research, and practical case studies — without leaving the comfort of your home office.

4:30 pm – 5:00 pm
Partner Showcase
Navigating the Current Hiring Climate!
Now that people are returning to work and/or companies are returning to hiring, it is important for organizations to understand the climate they are hiring within! During our presentation, we will cover the 5 Main Truths for every hiring need and how to check them off while you interview candidates and make a decision throughout the process.

- Be Decisive
- Be Clear
- Establish a Timeline
- Maintain that Timeline
- Follow up and follow through!

5:00 pm – 5:30 pm
Partner Showcase
Clinical Documentation Excellence: Risk Adjustment Education on Your Terms
Capstone has offered Medicare risk adjustment education to providers since 2005. Join us to learn risk adjustment basics and how Capstone’s solutions are fit for busy value-based providers!

5:30 pm – 6:00 pm
MDPORTALS
Partner Showcase
How Nationwide Chart Retrieval Can Significantly Increase your RAF Score
A detailed discussion of how the MDPoratls solution can identify potential and as-yet undocumented HCCs in both paper based and electronic charts, leveraging a nationwide network of hospitals and providers to retrieve RAF-rich external clinical data.

6:00 pm – 6:30 pm
Partner Showcase
Key Considerations for Evaluating an Accountable Care Organization Partner
LEARNING OBJECTIVES
- Identifying the top traits of a successful ACO partner
- The ACO checklist: asking the right questions
- Health and experience of the ACO
- Physician Satisfaction and Governance
- Strategy to Move to Downside Risk
- Data sharing, reporting and analytics
- Clinical judgment and decision making
- Shared savings distribution and participation costs
FRIDAY, OCTOBER 29  All Times Eastern (ET)

9:00 am – 9:45 am

**Colleague Engagement/Meet the Experts**
(Non-accredited presentation/No CME available)

Join small-group, live meet-ups for the opportunity to interact, engage, and discuss some of the most relevant topics in the home care medicine field.

- **Education Interest Group** - led by Rachel Miller, MD, MsED and Melissa Morgan-Gouveia, MD
- **Advanced Practice Provider (APP) Interest Group** - led by Barb Sutton, APRN and Doug Brown, PA
- **Social Worker (SW) Interest Group** - led by Gretchen Nordstrom, LICSW and Marina Nellius, LCSW-C

9:00 am – 11:00 am

**Dedicated Time with Exhibitors and Poster Authors**

9:00 am – 9:10 am

**Welcome**

Thomas (Tom) Lally, MD, Chief Executive Officer, Bloom Health Care; AAHCM Program Committee Chair

9:10 am – 9:20 am

**Opening Remarks**

Theresa Soriano, MD, MPH, Associate Chief Clinical Officer, Prospero Health; AAHCM President

9:20 am – 9:30 am

**Opening Keynote:**

Why Home Care Medicine Should Embrace Value-Based Care

Mark B. McClellan, MD, PhD, Director, Duke-Robert J. Margolis Center for Health Policy; Robert J. Margolis MD Professor of Business, Medicine, and Policy, Duke University

12:30 pm – 12:45 pm

**Brain Break**

12:45 pm – 1:45 pm

**Psychopharmacology for Agitation and Psychosis in Dementia**

Neuropsychiatric symptoms of dementia are common and progressive in dementia. The session will discuss the off-label use of psychotropic medications for the treatment of agitation and psychosis in dementia. We will cover the classes of medications supported by evidence-based literature, focusing on antidepressants and antipsychotics. This presentation will provide practical suggestions on medication selection and titration. Side effects and appropriate monitoring will also be addressed.

Naalla Schrieber, MD, MS, Medical Director, Home Care Psychiatry; Staff Psychiatrist, RWJ Barnabas

1:45 pm – 2:45 pm

**Designing Your Home Care Medicine Curriculum: Picking the Right Objectives for the Right Learner**

This session will feature home care medicine curricula and educational tools that are being used for a variety of levels and types of trainees. We will specifically focus on creating goals and objectives for home care curricula for medical students, residents, fellows, and interprofessional trainees. Attendees will get to preview the new Home Care Educator’s Toolkit, which will assist educators in implementing curricula to meet the learners’ needs and align with the educational experience offered.

Rachel Miller, MD, MsED, Associate Professor, Perlman School of Medicine, University of Pennsylvania, CMC VA Medical Center
Melissa Morgan-Gouveia, MD, Assistant Professor of Medicine, Christiana Care Health System
Katherine Wang, MD
Rachel Zimmer, RN, DNP, AGPCNP-C, Assistant Professor, Wake Forest Baptist Health

2:45 pm – 3:45 pm

**Trauma-informed Care for the Home Care Setting**

Prior trauma is both very common and also cumulative. Many of the risk factors for being homebound put a person at a high risk for prior trauma. This session will give the home care provider a framework for caring for the homebound using a trauma-informed approach.

Mariah Robertson, MD, MPH, Assistant Professor of Medicine, Johns Hopkins School of Medicine
Jessica Colburn, MD, Assistant Professor of Medicine, Johns Hopkins University School of Medicine

3:45 pm – 4:45 pm

**Virtual Care is Home Care: Developing High Performing, Interdisciplinary Cross-Functional Home Care Medicine Teams for Your Home Hospital**

As more care moves home, the home care medicine workforce must adapt to new care models and technologies. This session will explore the key attributes of a highly functioning remote team in a home hospital including physicians, nurse practitioners, and nurses. In this session we will examine 6 core competencies of high-quality home-based medicine and the unique elements of what it means to provide remote care that is safe, effective, and patient centered.

Rachel Miller, MD, MsED, Associate Professor, Perlman School of Medicine, University of Pennsylvania, CMC VA Medical Center
Melissa Morgan-Gouveia, MD, Assistant Professor of Medicine, Christiana Care Health System
Katherine Wang, MD
Rachel Zimmer, RN, DNP, AGPCNP-C, Assistant Professor, Wake Forest Baptist Health
FRIDAY, OCTOBER 29  Continued

Eliza Pippa Shulman, DO, MPH, Chief Medical Officer, Medically Home
Sarah Paez, MS, GNP, ACHPN, Senior Nursing Director Enterprise Kaiser Permanente, Medically Home, Inc.
Tyler BS, ADN, Implementation & Innovation Registered Nurse Specialist, Medically Home Group
Matthew Harville, RN, Implementation and Innovation Registered Nurse Specialist, Medically Home Group

1:45 pm – 2:45 pm

Caring Together: How Leveraging Paid Caregivers’ Expertise Can Improve Home Based Medical Care

Paid caregivers (e.g., home health aides, personal care attendants) have extensive patient knowledge but are rarely considered members of the medical team. Collaborating with these essential providers is key to improving patients’ health and quality of life. Drawing on our qualitative research, we will describe 1) opportunities for paid caregiver-provider collaboration (e.g., telehealth), 2) potential barriers to collaboration (e.g., health system factors, structural racism), and 3) best practices for collaboration (e.g., expectation setting).

Jennifer Reckrey, MD, Associate Professor, Department of Geriatrics and Palliative Medicine, Icahn School of Medicine at Mount Sinai
Emily Franzosa, DrPH, MA, Research Health Science Specialist, Geriatric Research, Education and Clinical Center, James J. Peters VA Medical Center; Assistant Professor, Department of Geriatrics and Palliative Medicine, Icahn School of Medicine at Mount Sinai

Bridging the Digital Divide in Telehealth

The COVID-19 pandemic led to a rapid expansion of telehealth capabilities across all practice types. Providing telehealth services to certain populations (elderly and others who face technological or financial barriers) presents distinct challenges and opportunities. This session will focus on identifying barriers to telehealth among patient populations and some strategies for addressing these barriers. These strategies include both technologic and personnel resources. The session will focus on the experiences of three different home telehealth programs for primarily older adults.

Peter Gliatto, MD, Associate Director, Mount Sinai Visiting Doctors Program, Icahn School of Medicine at Mount Sinai
Konstantinos Deligiannidis, MD, Medical Director, Northwell Health House Calls
Chelsea Hawley, PharmD, MPH Geriatrics Research Pharmacist, New England Geriatric Research Education and Clinical Center

Ethical Dilemmas in Home Care Medicine

Recent growth in Home Care Medicine creates ethical dilemmas due to changing financial incentives. We offer three case studies, including one of discharging a patient from the practice, to highlight tensions between a desire to “do the right thing” and financial or safety concerns. There is no easy answer, given the fact of “no margin, no mission.” We aim to promote debate about ethical issues that weigh on daily decisions of HCM leaders and clinicians.

Eric De Jonge, MD, Section Director of Geriatrics, MedStar Washington Hospital Center; AAHCM Past President and current Board member
Marina Nellius, LCSW-C, Community Social Work, MedStar House Call Program; AAHCM Board member

State of the Science 2021: An Updated Review of the Home Care Medicine Evidence Base

Our panel will provide a detailed overview of current research in the field of home care medicine with special focus on COVID-19-related research. The presenters will summarize the evidence base related to home-based primary care and other clinical services in the home highlighting clinical, policy, and cost outcomes. They will present a recent systematic review of published literature, identify research gaps in the field, ask the audience to share the gaps they see, and then share insights on future research directions.

Katherine Ornstein, PhD, MPH, Associate Professor, Icahn School of Medicine at Mount Sinai
Orla Sheehan, MD, PhD, Consultant Geriatrician, Connolly Hospital, Ireland and part-time Assistant Professor, Johns Hopkins University School of Medicine
Robert Zimbroff, MD, Internal Medicine Resident (PGY-3), Cleveland Clinic Foundation

2:45 pm – 3:15 pm

Dedicated Time with Exhibitors and Poster Authors
FRIDAY, OCTOBER 29 Continued

3:15 pm - 3:45 pm

● Policy Issues Impacting Home Care Medicine

This session will cover public policy issues affecting home care medicine — both legislative and regulatory. Policy issues will include details on alternative payment models. It will also highlight the work that the public policy committees (e.g., legislative, regulatory, model design and implementation) have accomplished thus far in 2021.

Joy Chen, MPH, Health Policy Analyst, Healthspeiren, LLC
Andrew MacPherson, BA, Political Science, Managing Partner, Healthspeiren, LLC
Ray Quintero, BA, Political Science, Managing Partner, Healthspeiren, LLC

3:45 pm – 5:00 pm

Annual Membership Meeting with President’s Message, Awards, and Town Hall Meeting

Learn about academy updates and results, review critical issues, and discuss important initiatives to ensure the success of your organization. Engage in Q&A with your AAHCM leaders and colleagues to continue building a home care medicine community. And join us as we announce and celebrate our prestigious 2021 AAHCM Award Winners.

5:00 pm – 6:00 pm

Welcome Reception

Relax and wrap up Day One by connecting with your colleagues, speakers, and board members in a virtual Welcome Reception!

6:00 pm – 7:00 pm

New Leaders Networking Event

ON THE RISE… join your early-career AAHCM colleagues interested in leadership for a motivating panel discussion. We’ll demonstrate the ways that home care medicine has changed during our short careers, how COVID-19 helped and hampered growth, and where we are heading.

In addition, hear an update on what the AAHCM New Leaders Interest Group is offering this year and what has been accomplished in the last year. Bring your questions and engage in open discussion.

Indicates concurrent or overlapping session Indicates interactive break-out session

3:15 pm - 3:45 pm

● Treating Diabetes: A Review of the Newer Medications

A review of the newer DM2 medications, including their role in therapy, relevant clinical outcomes, cardiovascular implications, and clinical pearls.

Amy Hughes, PharmD, BCPS, Clinical Pharmacist, Bloom Healthcare

● Why You Shouldn’t Fear Quality Improvement: Concrete Examples of How Doing the Work Helped Make Our Home-based Primary Care Practices Stronger

In this session, leaders from the National Home-Based Primary Care (HBPC) Learning Network will: 1) provide a high-level overview of the National Home-Based Primary Care Learning Network and the relevance and importance of quality improvement and continuous learning for HBPC, and 2) leaders from 3 HBPC Learning Network practices will provide concrete examples of how engaging in continuous learning made their practices stronger in ways they had not anticipated.

Christine Ritchie, MD, MSPH, Professor of Medicine, Massachusetts General Hospital and Harvard Medical School
Deborah Freeland, MD, Assistant Professor, Internal Medicine, University of Texas Southwestern Medical Center
Namirah Jamshed, MD, Associate Professor, Internal and Family and Community Medicine, University of Texas Southwestern Medical Center
Anita Major, MD, Director, House Call Program, Baylor College of Medicine
Jean Yudin, GNP-BC, Director, Home-Based Primary Care Program, University of Pennsylvania Health System

● Fresh Food Rx: An Innovative Community-Informed Food Prescription Program for Older Adults

This session will provide an overview of the development, implementation, and evaluation of a community-informed food prescription program serving older adults who have food insecurity. It will also provide an overview of the mixed methods research used to evaluate and improve the program.

Rachel Zimmer, RN, DNP, AGPCNP-C, Assistant Professor, Wake Forest Baptist Health
SATURDAY, OCTOBER 30  All times Eastern (ET)

**9:00 am – 11:00 am**

**Dedicated Time with Exhibitors and Poster Authors**

**9:30 am – 10:00 am**

**Product Spotlights**

(Non-accredited presentation/No CME available)

More information coming soon!

**10:00 am – 10:45 am**

**Colleague Engagement/Meet the Experts**

(Non-accredited presentation/No CME available)

Join small-group, live meet-ups for the opportunity to interact, engage, and discuss some of the most relevant topics in the home care medicine field.

- Diversity, Equity, and Inclusion (DEI) - led by Rev. Dr. Tyrone Pitts and Ravi Parikh, MD, MPP
- Public Policy - led by Robert Sowislo, MBA, and Linda DeCherrie, MD
- VA - led by Darlene Davis, MD, June Leland, MD, and Erica Markovitz, MD

**11:00 am – 11:30 am**

**Management of Acutely Decompensating Heart Failure**

Join us in this session for a brief overview of heart failure, then dive into the management of acutely decompensating heart failure in home-based primary care setting. A case-based approach will be used to explore this frequent chronic disease complication that presents in our home-bound patients.

Megan Graesser, DNP, MS, GNP-BC, Clinical Education Lead/Complex Care Manager, Bloom Healthcare

**11:00 am – 12:00 pm**

**Technologies in Home-Based Medical Care**

(Non-accredited presentation/No CME available)

Now medical technologies that were previously used only in the hospital or clinic are finding their way into the home. Technological advances across the globe have facilitated the increase of home care medicine. Throughout the latter half of the twentieth century, medical technology helped centralize care in hospitals and medical offices. Now, modern technology enables mobile diagnostic testing, treatments, and monitoring in the home. This high-tech technology coupled with high-touch home care medicine can lead to outcomes consistent with the Triple Aim of “improving the experience of care, improving the health of populations, and reducing per capita costs of health care.”

Aaron Yao, PhD, Research Director, Research Scientist, Shandong University; Home Centered Care Institute; University of Virginia

Peter J. Asmuth, MBA, Executive Leader, Strategic Business Initiatives & Health Innovation, Kaiser Permanente

George Gao, PharmD, Chief Pharmacy Officer and Co-founder, Nexusera

Michael Kanevsky MD, Lasalle General Hospital

John Martin, MD, Butterfly Network

Humayun Rashid, PhD, CEO, Xavor Corporation

**11:30 pm - 12:00 pm**

**Challenges in Atrial Fibrillation Management in the Elderly**

This session will provide a cardiologist’s perspective on the unique challenges surrounding atrial fibrillation management in elderly populations.

Michael Kostal, MD, Medical Director, Heart and Vascular Center at Radnor, Penn Medicine

**12:00 - 12:30 pm**

**Advance Illness Management for Home Based Patients Led to Improved Outcomes and Better Experience**

This session will present an innovative clinical practice with an interdisciplinary care team including home health nurses, nurse practitioners, physicians, social workers, and pharmacists that implemented a home-based advance illness management (AIM) program for patients with multiple chronic conditions. The program led to improved outcomes including lower ED and hospitalization rates (decrease by 50%), higher hospice use (increase by 48%) with goal-concordant care, and lower total cost of care.

Vipul Bhatia, MD, MBA, Medical Director, WellSpan Health

Jessica Mendez, DNP, RN, FNP-BC, Nurse Practitioner, WellSpan Health

**11:00 am – 12:00 pm**

**Lay the Foundation for a Strong Home-based Team with New, Concrete Onboarding Techniques**

In this session we will outline our experiences with common pitfalls and best practices for educating, training, and onboarding clinicians with varying levels of experience and backgrounds, within novel home-based models of care. Attendees will leave with concrete tips on how they can better structure and deliver education to their teams of home-based care providers.

Sara McBride, MSN, NP-C, Vice President, Clinical Programs & Training, WellBe Senior Medical

Lucas Golub, MD, Vice President, Clinical Programs & Training, WellBe Senior Medical

**11:30 pm - 12:00 pm**

**Clinical Cultural Awareness/Health Equity Practice Leadership and Operations Health Policy/Legislation Education**
Indicates concurrent or overlapping session
Indicates interactive break-out session

SNF at Home: Successes and Challenges of Launching a Home-Based Post-Acute Care Program

This session will focus on describing successes, challenges, and lessons learned involved with launching a SNF-at-Home program.

Lyn Weinberg, MD, Director, Division of Geriatrics; Medical Director, Hospital Elder Life Program, Primary Care Institute, Allegheny Health Network

Car Conversations: Engaging Learners in Reflection About Home-Based Care Between Visits

How can our interdisciplinary teams provide the most meaningful experience to learners accompanying us on a ride-along? While shadowing another professional can broaden perspectives, combining that shadowing experience with facilitated reflection has the potential to connect teaching points with a learner’s long-term interests and goals. This panel representing geriatric medicine, palliative care, social work, pharmacy, and chaplain services will share different approaches to engaging learners in reflection so audience members can have more meaningful car conversations.

Melissa Dattalo, MD, MPH, Medical Director, Home-Centered Care, University of Wisconsin, William S Middleton Memorial VA Hospital
Pooja Dogra, PharmD, BCACP, CDCES, Clinical Pharmacy Supervisor, Ambulatory Pharmacy Services, ChristianaCare Health System
Kellie Jones, LICSW, Social Worker, MedStar House Call Program
Sabrina Murphy, MD, MPH, Preventive Medicine Physician, University of Wisconsin, Madison
Kathryn Schueller, MD, Palliative Care Physician, UW Madison
Rev. Kirsten Worzola Dumke, Chaplain, University of Wisconsin Hospital and Clinics

Practice Logistics and Geographic Optimization via GIS Mapping

Mapping tools have been used in VA Home-Based Primary Care and a home care medicine practice in Colorado to facilitate practice management and emergency preparedness/response. This session will discuss the optimization of logistics and lessons learned while integrating mapping tools into these home care medicine practices.

Sarah Tubbesing, MD, MSc, Associate Professor, Dept of Medicine, David Geffen School of Medicine at UCLA; Medical Director, Home Based Primary Care, VA Greater Los Angeles Healthcare System
Thomas (Tom) Lally, MD, Chief Executive Officer, Bloom Health Care

Social Media: A Guide to Moving Home Care Medicine into the Digital Space

There is need for Home Care Medicine to increase its presence in the digital space to promote and advance the field. This session will highlight the role of social media in medical education, advocating for our vulnerable homebound patients, and increasing the impact of Home Care Medicine nationally for health care professionals, trainees, and the general public.

Mariah Robertson, MD, MPH, Assistant Professor of Medicine, Johns Hopkins School of Medicine
Rachel Miller, MD, MsED, Associate Professor, Perlman School of Medicine, University of Pennsylvania, CMC VA Medical Center
Sheridan Reiger, MD, MPH, Associate Regional Medical Director, Washington State, ConcertoCare
Shreya Trivedi, MD, Hospitalist, Clinical Instructor at Harvard Medical School, BIDMC

The Collaborative Care Model: How to Incorporate Behavioral Health into Your Practice

This session will review the practice of integrated behavioral health care, with an emphasis on Collaborative Care, a model with extensive evidence base demonstrating substantial improvement in patient outcomes compared to usual care. We will review the principles of Collaborative Care and discuss how some of these concepts could be applied to the home-based care setting.

Denise Chang, MD, Clinical Associate Professor, Department of Psychiatry and Behavioral Sciences, University of Washington
Morhaf Al Achkar, MD, PhD, Associate Professor, Family Medicine, University of Washington; Advancing Integrated Mental Health Solutions (AIMS) Center, University of Washington

Home-based Medical Care: Evolving from Fee for Service to Global Risk

Home-based medical care has been around in the US for decades. In fact, the father of medicine, Hippocrates, practiced home-based medical care. Such models in the US have struggled because of the inability to have a sustainable business model in a fee-for-service payment system, in particular, Medicare fee-for-service. In this session, we discuss the conditions needed to allow a home-based medical care model to thrive and grow.

Jeff Kang, MD, MPH, Founding CEO, WellBe Senior Medical
SATURDAY, OCTOBER 30  Continued

2:15 pm – 2:45 pm  Poster Winners Presentation

2:45 pm – 3:45 pm  Closing Keynote: Pursuing Health Equity in Home-Based Medical Care

Sherita Hill Golden, MD, MHS, Hugh P. McCormick Family Professor of Endocrinology and Metabolism; Vice President, Chief Diversity Officer, Johns Hopkins Medicine

3:45 pm – 3:50 pm  Closing Remarks

Ina Li, MD, Clinical Director of Continuum of Care and Home-Based Services; Clinical Director of Geriatrics, Christiana Care Health System; AAHCM Program Committee Co-Chair

Continuing Education

ACCREDITATION STATEMENT:
This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of PeerPoint Medical Education Institute, LLC and the American Academy of Home Care Medicine. The PeerPoint Medical Education Institute, LLC is accredited by the ACCME to provide continuing medical education for physicians.

DESIGNATION STATEMENT:
The PeerPoint Medical Education Institute, LLC designates this internet live activity for a maximum of 21.00 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

AAFP PRESCRIBED CREDIT
The AAFP has reviewed 2021 American Academy of Home Care Medicine (AAHCM) Virtual Annual Meeting and deemed it acceptable for AAFP for up to 21.00 Online Only, Live AAFP Prescribed credit. Term of Approval is from 10/29/2021 to 10/30/2021. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

NASW CREDIT
This program is Approved by the National Association of Social Workers (Approval #886757062-3413) for 7.5 continuing education contact hours.
