Capstone Risk Adjustment Services

Healthcare providers participating in value-based care are accountable for optimizing the patient experience and outcomes, while also assuming financial risk. Accuracy and completeness are key to assuring documentation compliance and optimizing revenue. How proficient are you and your team in managing risk adjustment payment models?

Capstone Risk Adjustment Services' physician consultants have provided effective onsite education nationally since 2005. Now, this valuable training is available online, 24/7, to fit your busy schedule.

**This ever-expanding online training series allows you to:**

- Understand the role of the clinician in risk adjustment
- Learn how diagnostic codes are used in population health and risk adjustment
- Acquire skills in detection and specific documentation of conditions for more accurate coding

**Multi-user discounts are available.**
